# In the beginning...

# Communities of Practice

**Communities of practice** (CoPs) are groups of people who share a concern or a passion for something they do and learn how to do it better as they interact regularly

# Coming together...

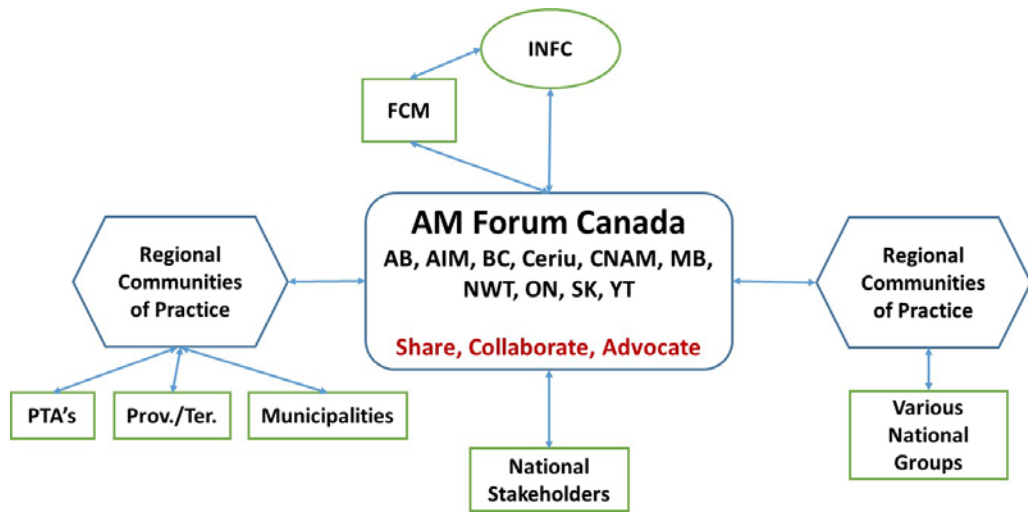

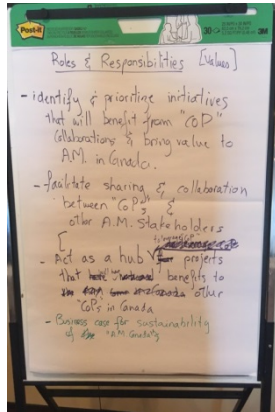

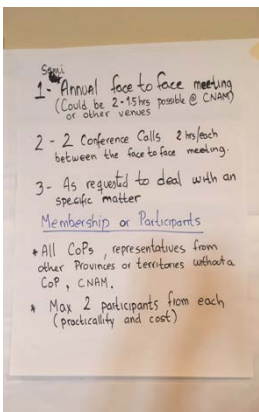

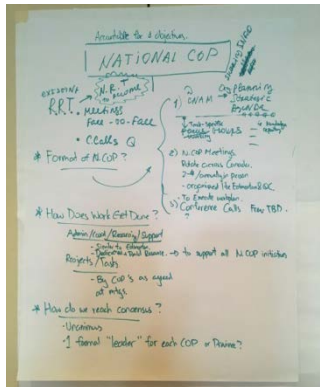

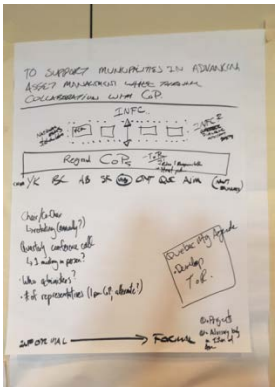

# Coming together

# Coming together

- Formalize collaboration between participants through development of a regional and national Collaboration Framework;
- Build and strengthen relationships between workshop participants; and
- Build a foundation to enable collaborative and coordinated delivery of awareness building and technical assistance in future phases of MAMP and beyond.

# Building Together

# Our Charter

## **Vision**

A harmonized alliance of communities of practice to advance public sector asset management in Canada.

## **Mission**

To support the advancement of asset management in Canada through collaboration, knowledge sharing and advocacy.

# Our Structure

We will continue to exist as an informal group of organizations that have agreed to work together. As the group identifies specific initiatives that require a greater degree of formality (e.g. managing funds), appropriate structures and leadership will be identified and agreed to as needed.

# Our Website

[www.assetmanagementcanada.ca](http://www.assetmanagementcanada.ca)

# Upcoming Work

- Work collaboratively to establish a common framework for online resource meta data
- Re-assess the state of the practice of asset management in Canada
- Find a path to sustainability for Asset Management CoPs
- Continue working together
